DICOM 3.0, HL7 interface, modality worklist and multiple viewing stations

Unmatched easy-to-use user interface

Seamlessly link or bridge from your EMR/EHS clinical and management systems

Quickly and easily access all digital image files and share them with colleagues and patients

Multiple hardware manufacturer integration

Podiatry specific tools and measurements including Metatarsal Angle and Hallux Abductus Angle

TigerView provides specific podiatric labeling criteria that allows you to quickly find the images you want to view

Record audio notes and text annotations with images

CD burning software with CD viewer built in

Customizable report generation

Complete turn-key solution: set-up, staff training, and operation of digital x-ray has never been easier
**TigerView**

TigerView allows you to uniquely manage all podiatry x-ray and wound management images seamlessly with one database.

**SPECIFICATIONS**

**PACS Viewer – Modality Support**

- **Computed Radiography (CR)**: Video clips from fluoroscopes, Intra-oral cameras
- **Direct Digital Radiography (DR)**: Digitized x-ray film, Extra-oral cameras
- **Ultrasound (US)**: Color digital camera images for morphing and wound care progression

**EMR or Charting Bridging – Easy Link from your EMR**

- Proprietary bridges: HL7, TigerLink

**TigerView Cloud**

- Upload images from any device: Quickly view your images from anywhere, Automatic backup of your images
- Data safely stored off-site in the “cloud”: Easily transfer images among providers, Automatic software updates
- One database solution for multiple offices

**Advanced Diagnostic Tools and Podiatry Specific Measurements**

- Midline: Magnification Tools, Cobb’s Angle Measurement
- Center Point: Line Measurements, Inter-Metatarsal Angle Measurement
- Stitching: Area Measurements, Hallux Abductus Angle Measurement
- Cropping: Angle Measurement

Stack both measurements and annotations to achieve more Podiatry measurements.

Other measurements you can accomplish are as follows with the use of multiple annotations and measurements:
